

## Say it with Flowers Checklist

1. Choose a reason: Often no reason at all works best, but women typically love flowers anytime.  
Flowers or Plant: Decide if a plant is a more practical gift or if the fun of flowers is what will speak to her heart. Base it on her desires not yours.
2. Plan wisely: Make sure that she is going to be there at work on the day they will be delivered. Call ahead to be sure she is at her desk.
3. Choose a florist: Pick a florist close to the location of the deliver (work, school, etc.)  
Explore your options ([www.2dozenroses.com](http://www.2dozenroses.com) works well too)
4. Choose a day: The beginning of the week works best for maximum appreciation time.
5. Sign the card: Be sure you sign the card yourself or even take the time to go and get one that is personal. Take it to the florist ahead of time.
6. Hand deliver: If you are able to, deliver the flowers yourself. That way you get to see her reaction.
7. Gifts too?: You could also give her a small gift with the flowers. Jewelry or stuffed animals work well. Candy is always good.
